ABOUT ME

I'm a Software Developer with a degree from Harare Institute of Technology and 4+ years of experience at LADS Africa. I build web applications using Laravel, Python, Django, and React.js, and have working knowledge of Flutter, Next.js, and PHP for full-stack development.
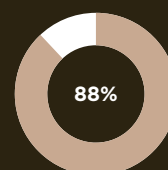

EXPERIENCE

- Developed and maintained full-stack web applications using Laravel and Django, ensuring performance, security, and scalability.
- Built dynamic and interactive user interfaces with React.js and integrated RESTful APIs for seamless client-server communication.
- Designed and implemented backend logic for education-based platforms, including student career path prediction using machine learning.
- Contributed to cross-platform mobile applications using Flutter and Next.js, with a focus on user experience and responsive design.
